

THE LIES OF EVOLUTION BY PASTOR MIKE CURTIS

Lie #1: Something came from nothing without God and living matter came from nonliving matter (abiogenesis)

THE LIES OF EVOLUTION

- A. Any discussion of what happened before a Big Bang does not fall into the realm of science
- B. Can living matter really come from non-living matter?
 - i. Stanley Miller's 1940 experiment
 - ii. Nasa's 1980 experiment

THE LIES OF EVOLUTION

Probability: 1 in 10 to the 60th power
Conclusion: Lie #1 concludes that since they see no need for God, there is no God.
Results? No life purpose.

THE LIES OF EVOLUTION

However: Anything created by a Designer possesses 2 things:

- 1) Design
- 2) Purpose or function (Destiny)

THE LIES OF EVOLUTION

Jesus said: "What does it profit a man if he should gain the whole world but lose his own soul?" (Matthew 16:26)

This shows 2 things:

- 1) A wrong purpose.
- 2) A misplaced sense of value.

THE LIES OF EVOLUTION

Lie #2: If the universe and earth are much older than what the Bible says (about 6,000 years), the Bible must be wrong and cannot be trusted.

THE LIES OF EVOLUTION

Question: Is the earth really 4.5 billion years old?

Evidence #1: Little to no erosion between layers of rock strata.

THE LIES OF EVOLUTION

Question: Is the earth really 4.5 billion years old?

Evidence #2: Warped rock strata.

THE LIES OF EVOLUTION

Scripture confirms a recent creation:

- > Genesis 1
- > Mark 10:6

Satan's goal: Genesis 3:1 — "Did God really say...?"

The Result? No clear concern for consequences.

THE LIES OF EVOLUTION

Lie #3: "Evolution is a fact!" Therefore, man is little different from the rest of the animal kingdom.

THE LIES OF EVOLUTION

MAJOR PROBLEM:

The tremendous lack of transitional forms.

2 Conclusions from Evolution's Lie:

1. We treat animals like humans.
2. We treat humans like animals.

THE LIES OF EVOLUTION

WHAT THEN CAN WE DO?
